

Level 14

At the top level of the new Humber River Hospital - Fourteen - are our Inpatient Rehabilitation Unit and the Rehab Gym.

From here our rehab patients can see the entire GTA vista, including Lake Ontario and the CN Tower.

As they work with our physiotherapy and rehab team, we hope that the amazing view helps motivate our patients, enhances their progress and provides a sense of well-being for them.

And as our population ages, this will become an even more vital service for our community.

We hope you've enjoyed the tour. And we hope to never see you as patients, only as visitors!

But if you are ever a patient at Humber River Hospital, we promise respectful, compassionate, expert care, and a hospital experience that puts you, our patient, at the centre of the process. It is, after all, your care.
